"I do not promise you happiness in this life, only in the next"

**E** VOLUTION, BE IT OF THE ATHEISTIC OR THEISTIC VARIETY, is totally illogical. It has never been witnessed despite all those experiments on poor little fruit flies. It is philosophically untenable and against the basic laws of thermodynamics. Evolution is the very definition of superstition for it grants to lesser things more power than they actually have. The Bible does not support it making it unorthodox. But what I have also come to realize through the great work of the *Kolbe Creation Studies Center* and its founder, Mr. Hugh Owen, is that evolutionism is pure, unadulterated blasphemy. The evolutionists have turned our perfect and wonderful God into some sort of mad scientist who experiments on creation in a heavenly laboratory. According to the evolutionist, God purposely introduced death, disease, mutation, disorder, imperfection, and failure into creation as part of His original plan. Over millions of years and millions of diseased ridden bodies, mutants, and corpses, a body was finally arrived at fit for a human soul. But this is not the story of our origins that I believe in. Nor is it the work of creation as taught by all the Church Fathers. I invite all of you to come to a talk on Friday, March 10, 2017, at 6:30 pm, given by Mr. Hugh Owen. Please invite your friends, especially those who have fallen into the trap of the evolutionary deception. —Fr. Shannon Collins, MSJB, Pastor.

*"The observance of Lent is the very badge of the Christian warfare. By it we prove ourselves not to be enemies of Christ. By it we avert the scourges of divine justice. By it we gain strength against the princes of darkness, for it shields us with heavenly help. Should mankind grow remiss in their observance of Lent, it would be a detriment to God's glory, a disgrace to the Catholic religion, and a danger to Christian souls. Neither can it be doubted that such negligence would become the source of misery to the world, of public calamity, and of private woe."*—Pope Benedict XIV

#### **Additional UPDATES on building projects...**

- Our new confessionals should be installed this coming week. Hopefully, they will be ready for use next weekend. We are going to further soundproof them so their use might be delayed. There will be two confessionals. Each one will have a side for priest and one side for penitent.
- Our pipe organ installation has been delayed until the week of March 12, 2017. It will be well worth the wait!
- Soon we will be seeking donors for the restoration of the stained glass windows and the Stations of the Cross. Fr. Shannon will be putting together a sign-up sheet along with suggested offerings in the very near future.

"My dear sons, I truly say to you that every one must study his own nature. Some of you can sustain life with less food than others can, and therefore, I desire that he who needs more nourishment shall not be obliged to equal others, but that every one shall give his body what it needs for being an efficient servant of the soul. For as we are obliged to be on our guard against superfluous food which injures body and soul alike, thus we must be on the watch against immoderate fasting, and this the more, because the Lord wants conversion not victims"—*St. Francis of Assisi.*

### QUOTATIONS AGAINST EVOLUTION BY EVOLUTIONISTS!

—"There are only two possibilities as to how life arose; one is spontaneous generation arising to evolution, the other is a supernatural creative act of God, there is no third possibility. Spontaneous generation that life arose from non-living matter was scientifically disproved 120 years ago by Louis Pasteur and others. That leaves us with only one possible conclusion, that life arose as a creative act of God. I will not accept that philosophically because I do not want to believe in God, therefore I choose to believe in that which I know is scientifically impossible, spontaneous generation arising to evolution" (*Dr. George Wald, evolutionist, Professor Emeritus of Biology at the University at Harvard, Nobel Prize winner in Biology.*)

—"Scientists who go about teaching that evolution is a fact of life are great con-men, and the story they are telling may be the greatest hoax ever! In explaining evolution we do not have one iota of fact" (*Dr. Newton Tahmisian, Atomic Energy Commission.*)

—"My attempts to demonstrate evolution by an experiment carried on for more than 40 years have completely failed.....It is not even possible to make a caricature of an evolution out of paleobiological facts...The idea of an evolution rests on pure belief" (*Dr. Nils Heribert-Nilsson, noted Swedish botanist and geneticist, of Lund University.*)
